1. This Office action is in response to the amendment filed 06/03/04. Claims 1-16 and 19-22 are pending. Claims 17 and 18 have been canceled.
2. The proposed drawing correction filed 06/03/04 has been accepted.
3. At least Figures 1-8 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. The figures are identical to those in ES 2,156,525 A1. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
5. Claims 1, 8-19 and 19-21 are rejected under 35 U.S.C. 102(b) as being anticipated by ES 2,156,525 A1.

Figures 1-8 of the Spanish Patent provide each of the elements of these claims.

6. Claim 22 is allowed.

7. Claims 2-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Prior art cladding systems having insulation are listed. Also Crandell '321 shows a cladding system having some of the features of the instant invention.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert J Canfield whose telephone number is 703-308-2482. The examiner can normally be reached on M-Th.
